PROFILE

IT Support Technician at **Leftclick**, a Cape Town managed service provider, delivering L1/L2 remote and on-site support to multiple business clients every day. Hands-on with **Microsoft 365 and Entra ID administration, Active Directory, Windows and macOS troubleshooting, endpoint security (ESET), RMM (NinjaOne) and email security (Mimecast). NinjaOne Certified Technician (MSP)** with a BSc in Information Technology, bringing structured approaches to every ticket. Clear and patient with end users on the phone and comfortable with a busy queue.

CORE SKILLS

- **Microsoft 365 & Entra ID**
Users, licensing, mailboxes, MFA, multi-tenant
- **Desktop Support — Windows & macOS**
Windows 10/11, macOS, printers, OS rebuilds
- **Endpoints & Security**
ESET, full-disk encryption, NinjaOne RMM
- **Firewall & Email Security**
Windows Firewall, WAF, Mimecast quarantine
- **Active Directory**
Accounts, password resets, groups, Group Policy
- **Remote Service Desk**
Triage, phone support, remote sessions, notes
- **Networking**
TCP/IP, DNS, DHCP, Wi-Fi, LAN/WAN, VoIP
- **Basic Server Support**
Windows Server 2019, AD DS, DNS, DHCP, PowerShell

EXPERIENCE

IT Support Intern (Technical Resource)

Feb 2026 – Present

Leftclick (LC Networks) · Managed Service Provider · Green Point, Cape Town · On-site

First-line and second-line support for a portfolio of MSP clients, handled by phone, remote session and on-site visits. Internship extended beyond the initial three-month term.

SERVICE DESK & END-USER SUPPORT

- Work a daily queue of client tickets, calling users directly to diagnose issues and keeping them updated until the problem is fixed.
- Troubleshoot Windows and macOS issues end to end: Mac Mail modern authentication failures, Cloud PC and RDP sign-in errors, CaseWare printer driver faults, display problems, local account sign-in issues, POST beep codes and Fanvil VoIP desk-phone network passthrough.
- Restored a failed MacBook Pro keyboard and trackpad by tracing the fault to an unsupported macOS version and performing a clean OS reinstall.

MICROSOFT 365, IDENTITY & ACTIVE DIRECTORY

- Administer Microsoft 365 across multiple client tenants via the Microsoft 365 Admin Center: user setup, licence assignment, mailbox issues and Entra ID MFA registration errors.
- Audit and interpret licence assignments across tenants using PowerShell with Microsoft Graph.
- Manage user accounts, password resets and group membership in Microsoft Active Directory.

ENDPOINTS, SECURITY & EMAIL

- Deploy NinjaOne RMM agents to client devices and use NinjaOne for remote access, monitoring and maintenance tasks such as disk cleanups.
- Deploy and manage ESET endpoint protection, including ESET Full Disk Encryption on client laptops.
- Review and release quarantined emails and attachments in Mimecast for clients, checking each item is safe before release.
- Diagnosed hardware diagnostic failures across many Windows 7/10 machines and presented the findings to management as a case for a hardware refresh.
- Researched CIS Controls, ISO 27001 and NIST for a supervisor-assigned security task and wrote up a clear summary.

EXPERIENCE (CONTINUED)

Web Development Intern

Aug 2025 – Sep 2025

Hex Softwares · Remote

- Delivered three web projects to deadline in a remote team (portfolio site, music player, book library app) using HTML, CSS and JavaScript, published on GitHub.
- Awarded a Certificate of Completion and a Letter of Recommendation from the founder, which highlighted communication, problem-solving and teamwork.

Promoter (Part-time)

Dec 2023 – Dec 2025

Isilumko · Cape Town

- Engaged members of the public face to face for two years alongside full-time studies, building the confident, friendly communication I now use on support calls every day.

CERTIFICATIONS

NinjaOne Certified Technician | MSP **CERTIFIED**

NinjaOne · Feb 2026 · Credential ID nLnSSSajA

Microsoft Word 2019 Advanced & Excel 2019 Advanced

University of Michigan via Coursera · Jan 2026

EDUCATION

Bachelor of Science in Information Technology — Software Engineering

2023 – 2025

Eduvos · Cape Town · NQF 7 · Completed

- **Golden Key International Honour Society** member — invited for ranking in the top 15% of academic achievers at Eduvos.
- **Web Server Management:** installed and configured Windows Server 2019 with Active Directory, DNS, DHCP, Group Policy, Windows Firewall and PowerShell scripting.
- Further coursework in networking, databases (MySQL, MongoDB), Python, C++ and mobile development.

Postgraduate studies in Information Technology

2026 – Present

Eduvos Online · Part-time, alongside full-time work

- Modules include Network Design, Offensive & Defensive Technologies and Data Mining, plus a research project on **Zero Trust Architecture for remote and hybrid work**.

SECURITY LAB PROJECT

Hardened multi-service environment (Docker)

2026

- Built and secured a containerised environment with TLS certificates (own PKI with OpenSSL), a ModSecurity web application firewall, encrypted data at rest (AES-256), hashed credentials and hardened containers.
- Diagnosed real faults along the way, including port conflicts, TLS mismatches and certificate errors, and verified traffic with tcpdump packet analysis.
